## Westinghouse Presents 70" LED LCD TV

**BY GREG TARR**

LAS VEGAS — Westinghouse Digital (suite HL-360) is introducing here this week the first models in its 2012 ultra-slim bezel LED edge-lit HDTV series, and a 70-inch monster-sized LED LCD HDTV.

The highlight of the Westinghouse showcase is the 70-inch UW70T9VZ (shipping in the first quarter at a \$2,199 suggested retail) LED edge-lit FullHD 1080p LCD TV.

It features a 120Hz refresh rate, 8ms response time, three HDMI inputs, one component and one VGA input, and has options such as 3D noise reduction, inverse 3:2 pull-down for film-based content and three-way selectable color temperature.

Meanwhile, the 46-inch UW46T5PZ (shipping in March at a \$679 suggested retail) offers a new ultra-slim design and improved picture quality from an LED-edge-lit LCD panel with a 120Hz refresh rate, 6.5ms re-

sponse time and FullHD 1080p resolution.

The set weighs a scant 38 pounds and includes 3D noise reduction, inverse 3:2 pull-down for film-based content and three-way selectable color temperature.

The company will also present a line of Westinghouse Digital soundbars. Slated to appear are the WSB-N20BW-series wireless Bluetooth soundbar and WSB-N20B-series Bluetooth soundbar.

Both offer 2x12 watts, a Class D amplifier and front LED display. **CES**
